ULTRA SILENCE LOFT

The Ultra Silence Loft system matches the modern trend of interior design perfectly well.

It is a double-glazed aluminium and glass wall system with mullions. The stable and durable structure of the whole system completes the top-quality arrangement. Ultra Silence Loft is characterised by high acoustic insulation parameters, which guarantee soundproofing and office working conditions at the highest level.

Glazing/Filling	Acoustic insulation Rw
VSG 55.2Si + VSG 66.2Si + Acoustic insert	52dB
2x MDF 12 + Mineral wool + Acoustic insert	46dB
2x (GK+ Bl.) + Mineral wool + Acoustic insert	57dB

Double-glazed mullion system

Structural profiles 25 or 30 mm high and 100 mm wide in any colour from the RAL palette

Maximum height 4036 mm

Aesthetic and minimalist design

A possibility to install both horizontal and vertical mullions

Invisible gaskets
